

HOSE REEL NOZZLES

Originally produced for firefighting applications, the TruDesign Hose Reel Nozzle is durable yet lightweight. Made from high impact strength polycarbonate polymer, this nozzle can be adjusted easily and smoothly with a twist of the wrist for a strong jet throw, cone spray or fog pattern. The hose reel nozzle is ideal for all agricultural, industrial and marine applications on boats and dockside (Marinas). Designed by TruDesign, this model meets both New Zealand and Australian Fire Hose Reel Standards and is ideal for high water volume applications – typically up to 50 litres per minute.

The nozzle has a thick polyurethane protective bumper to extend the life of the nozzle, and also prevent damage to walls and floors (or in the case of marine: decks)

The Hose Reel Nozzle features a 3/4" BSP female thread for connecting tailpieces or similar.

MODELS

Part #	Description
90363	Nozzle Hose Reel 3/4" BSP

Tails

Part #	Description
90247	Tail 13mm 3/4" BSP Black
90253	Tail 19mm 3/4" BSP Black
90264	Tail 25mm 3/4" BSP Black

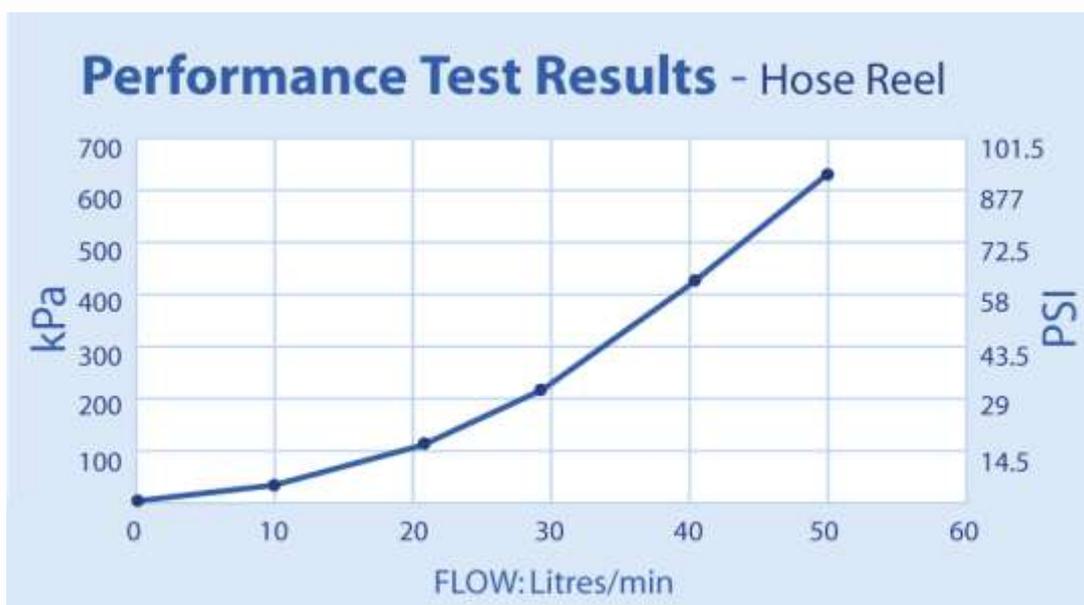

KITS

Part #	Description
91055	Nozzle Kit Hose Reel – 13mm hose tail & Clamp
91056	Nozzle Kit Hose Reel – 19mm Hose tail & Clamp
91057	Nozzle Kit Hose Reel – 25mm Hose Tail & Clamp

FEATURES and BENEFITS

Feature :	Benefit :
Made from a UV protected polycarbonate polymer.	High strength, yet light in weight. Will not break down with ultraviolet light or discolour from the sun.
Designed to meet both New Zealand and Australian Fire Hose Reel Standards.	Fire Hose Reel use compliant.
Double O-rings.	Ensures smoother action and better sealing.
Options : various adaptor sizes (13mm – 25mm)	Can be fitted to different size hoses.
Thick polyurethane black protective bumper.	Extends the nozzle life and prevents damage caused to surrounds by dropping or flailing.

PERFORMANCE CURVES

Hose Clamps

Made from strong Nylon 6 with stainless steel holding bolts these clamps eliminate the need to use hose clips. Hose clips can cause serious bodily harm. Caused when the tails become razor sharp over time, causing cuts and abrasions to the operator in what is already a wet environment.

Part #	Description
90357	Hose Clamp 13mm
90359	Hose Clamp 19mm
90360	Hose Clamp 25mm
90361	Hose Clamp 32mm
90362	Hose Clamp 38mm
